

MAX cash register is the best solution to all your problems, being simple to use, innovative and extremely compact.

MAX peculiar and smart design makes unique and stands out the look of your shop.

MAX is tough and reliable and is equipped with a 203dpi high resolution thermal print mechanism with the capacity to print at extremely high speeds, up to 80mm/sec on 60mm-wide receipts.

The wide diameter of the paper roll (80mm) ensures excellent autonomy of operation. The paper roll is quick and easy to replace.

MAX incorporates 2 backlit alphanumeric LCD displays (2 x 20 characters), operator side and client side, and a 56-key keyboard. (43-key keyboard for MAXi)

MAX is equipped with an electronic journal (MultiMediaCard) for the recording of journal data.

The MultiMediaCard replaces the paper roll, thereby improving the cash register performance in terms of security and costeffectiveness, as well as eliminating recording problems.

(a 64Mb MMC replaces 500 rolls by 35mt).
